

# Adding up to a whole

Shade the missing parts and complete the addition sentences

$$\frac{3}{5} + \frac{2}{5} = \frac{5}{5}$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

## Adding up to a whole

Shade the missing parts and complete the addition sentences

$$\frac{3}{5} + \frac{2}{5} = \frac{5}{5}$$

$$\frac{1}{4} + \frac{3}{4} = \frac{4}{4}$$

$$\frac{2}{8} + \frac{6}{8} = \frac{8}{8}$$

$$\frac{6}{9} + \frac{3}{9} = \frac{9}{9}$$

$$\frac{3}{6} + \frac{3}{6} = \frac{6}{6}$$

$$\frac{4}{6} + \frac{2}{6} = \frac{6}{6}$$

$$\frac{4}{7} + \frac{3}{7} = \frac{7}{7}$$
