

Matching fractions

What fraction of the circles is shaded? Match the circles to the correct fractions

		<div style="border: 1px solid gray; border-radius: 15px; padding: 5px; display: inline-block;">$\frac{1}{2}$</div>	
		<div style="border: 1px solid gray; border-radius: 15px; padding: 5px; display: inline-block;">$\frac{1}{6}$</div>	
		<div style="border: 1px solid gray; border-radius: 15px; padding: 5px; display: inline-block;">$\frac{1}{3}$</div>	
		<div style="border: 1px solid gray; border-radius: 15px; padding: 5px; display: inline-block;">$\frac{2}{9}$</div>	
		<div style="border: 1px solid gray; border-radius: 15px; padding: 5px; display: inline-block;">$\frac{3}{4}$</div>	
		<div style="border: 1px solid gray; border-radius: 15px; padding: 5px; display: inline-block;">$\frac{5}{9}$</div>	
		<div style="border: 1px solid gray; border-radius: 15px; padding: 5px; display: inline-block;">$\frac{7}{10}$</div>	
		<div style="border: 1px solid gray; border-radius: 15px; padding: 5px; display: inline-block;">$\frac{5}{6}$</div>	
		<div style="border: 1px solid gray; border-radius: 15px; padding: 5px; display: inline-block;">$\frac{6}{7}$</div>	
		<div style="border: 1px solid gray; border-radius: 15px; padding: 5px; display: inline-block;">$\frac{2}{5}$</div>	

Matching fractions

What fraction of the circles is shaded? Match the circles to the correct fractions

The exercise consists of three columns. The first column has 10 circles with the following shaded portions: 1/2, 5/8, 3/5, 2/5, 3/4, 1/3, 1/2, 5/8, 1/2, and 2/5. The second column contains 10 fractions: 1/2, 1/6, 1/3, 2/9, 3/4, 5/9, 7/10, 5/6, 6/7, and 2/5. The third column has 10 circles with the following shaded portions: 1/3, 2/9, 1/6, 1/2, 5/8, 1/3, 1/2, 5/8, 1/2, and 2/5. Lines connect the circles to the fractions: the first circle (1/2) is connected to the first fraction (1/2); the second circle (5/8) is connected to the 5/8 fraction; the third circle (3/5) is connected to the 3/5 fraction; the fourth circle (2/5) is connected to the 2/5 fraction; the fifth circle (3/4) is connected to the 3/4 fraction; the sixth circle (1/3) is connected to the 1/3 fraction; the seventh circle (1/2) is connected to the 1/2 fraction; the eighth circle (5/8) is connected to the 5/8 fraction; the ninth circle (1/2) is connected to the 1/2 fraction; and the tenth circle (2/5) is connected to the 2/5 fraction.
