

Numerator and denominator

Read and shade the shapes and write the fraction

The numerator is 3, the denominator 4.

The shaded fraction is:

$$\frac{3}{4}$$

The numerator is 3, the denominator 5.

The shaded fraction is:

The numerator is 4, the denominator 6.

The shaded fraction is:

The numerator is 5, the denominator 6.

The shaded fraction is:

The numerator is 4, the denominator 10.

The shaded fraction is:

The numerator is 4, the denominator 9.

The shaded fraction is:

Numerator and denominator

Read and shade the shapes and write the fraction

The numerator is 3, the denominator 4.

The shaded fraction is:

$$\frac{3}{4}$$

The numerator is 3, the denominator 5.

The shaded fraction is:

$$\frac{3}{5}$$

The numerator is 4, the denominator 6.

The shaded fraction is:

$$\frac{4}{6}$$

The numerator is 5, the denominator 6.

The shaded fraction is:

$$\frac{5}{6}$$

The numerator is 4, the denominator 10.

The shaded fraction is:

$$\frac{4}{10}$$

The numerator is 4, the denominator 9.

The shaded fraction is:

$$\frac{4}{9}$$
