

# Drinking Milk

Name: \_\_\_\_\_ Score: \_\_\_\_\_

3 friends decided to count the glasses of milk they drink in 1 month and to put this number in a data table and pictograph. Use the table to complete the pictograph and to answer the questions.

Mark	Joe	Peter
55 glasses	44 glasses	77 glasses

1) Complete the pictograph

Mark	
Joe	
Peter	

Each  stands for 11 glasses

- 2) Who drank the least glasses of milk in this month ?
- 3) How many more more glasses did Peter drink than Joe ?
- 4) If 4 glasses equal 1 liter, how many liter of milk did Joe drink ?
- 5) How many liters did the drink altogether ?

# Answers

3 friends decided to count the glasses of milk they drink in 1 month and to put this number in a data table and pictograph. Use the table to complete the pictograph and to answer the questions.

Mark	Joe	Peter
55 glasses	44 glasses	77 glasses
