What Fractions am I?

Name: _____   Score: _____

Determine the fractions.

I am equivalent to $\frac{12}{23}$

My numerator is 48.

What fraction am I? _____

I am equivalent to $\frac{48}{84}$

My denominator is 3 x 7.

What fraction am I? _____

I am equivalent to $\frac{10}{11}$

My denominator is 14 + 8.

What fraction am I? _____

I am equivalent to $\frac{25}{75}$

My numerator equals a dozen.

What fraction am I? _____

I am equivalent to $\frac{10}{40}$

My numerator is 10 more than 5.

What fraction am I? _____

I am equivalent to $\frac{34}{60}$

My denominator is 2 x 15.

What fraction am I? _____

I am equivalent to $\frac{45}{75}$

My numerator is 12 minus 3.

What fraction am I? _____

I am equivalent to $\frac{34}{85}$

My numerator is 2 x 5.

What fraction am I? _____

Answers

Determine the fractions.

I am equivalent to $\frac{12}{23}$

My numerator is 48.

What fraction am I? $\frac{48}{92}$

I am equivalent to $\frac{48}{84}$

My denominator is 3 x 7.

What fraction am I? $\frac{12}{21}$

I am equivalent to $\frac{10}{11}$

My denominator is 14 + 8.

What fraction am I? $\frac{20}{22}$

I am equivalent to $\frac{25}{75}$

My numerator equals a dozen.

What fraction am I? $\frac{12}{36}$

I am equivalent to $\frac{10}{40}$

My numerator is 10 more than 5.

What fraction am I? $\frac{15}{60}$

I am equivalent to $\frac{34}{60}$

My denominator is 2 x 15.

What fraction am I? $\frac{17}{30}$

I am equivalent to $\frac{45}{75}$

My numerator is 12 minus 3.

What fraction am I? $\frac{9}{15}$

I am equivalent to $\frac{34}{85}$

My numerator is 2 x 5.

What fraction am I? $\frac{10}{25}$
