What Fractions am I?

Name: _____ Score: _____

Determine the fractions.

I am equivalent to $\frac{10}{20}$

My denominator is 2 dozens.

What fraction am I? _____

I am equivalent to $\frac{4}{5}$

My numerator is 9 + 11.

What fraction am I? _____

I am equivalent to $\frac{5}{17}$

My denominator is 17 x 3.

What fraction am I? _____

I am equivalent to $\frac{2}{3}$

My numerator equals 50.

What fraction am I? _____

I am equivalent to $\frac{15}{30}$

My numerator is 3 and 22.

What fraction am I? _____

I am equivalent to $\frac{40}{44}$

My denominator is 13 - 2.

What fraction am I? _____

I am equivalent to $\frac{4}{5}$

My numerator is 25 minus 1.

What fraction am I? _____

I am equivalent to $\frac{36}{39}$

My denominator is 5 + 8.

What fraction am I? _____

Answers

Determine the fractions.

I am equivalent to $\frac{10}{20}$

My denominator is 2 dozens.

What fraction am I? $\frac{12}{24}$

I am equivalent to $\frac{4}{5}$

My numerator is 9 + 11.

What fraction am I? $\frac{20}{25}$

I am equivalent to $\frac{5}{17}$

My denominator is 17 x 3.

What fraction am I? $\frac{15}{51}$

I am equivalent to $\frac{2}{3}$

My numerator equals 50.

What fraction am I? $\frac{50}{75}$

I am equivalent to $\frac{15}{30}$

My numerator is 3 and 22.

What fraction am I? $\frac{25}{50}$

I am equivalent to $\frac{40}{44}$

My denominator is 13 - 2.

What fraction am I? $\frac{10}{11}$

I am equivalent to $\frac{4}{5}$

My numerator is 25 minus 1.

What fraction am I? $\frac{24}{30}$

I am equivalent to $\frac{36}{39}$

My denominator is 5 + 8.

What fraction am I? $\frac{12}{13}$
