

What Operator?

Name: _____ Score: _____

Use the PEMDAS/BODMAS rules and find the missing operator!

$3 \times 8 \square 2 = 12$

$1 \times 5 \square 6 = 11$

$(15 - 6) \square 1 = 9$

$5 \square (6 \div 2) = 15$

$9 \square (4 \div 1) = 13$

$(10 - 6) \square 2 = 2$

$(12 - 6) \square 2 = 3$

$6 \square (4 \div 2) = 12$

$(5 + 1) \square 3 = 2$

$10 + 2 \square 4 = 18$

$11 \times 3 \square 1 = 34$

$(10 - 1) \square 3 = 3$

Answers

Use the PEMDAS/BODMAS rules and find the missing operator!

$$3 \times 8 \boxed{\div} 2 = 12$$

$$1 \times 5 \boxed{+} 6 = 11$$

$$(15 - 6) \boxed{\times} 1 = 9$$

$$5 \boxed{\times} (6 \div 2) = 15$$

$$9 \boxed{+} (4 \div 1) = 13$$

$$(10 - 6) \boxed{\div} 2 = 2$$

$$(12 - 6) \boxed{\div} 2 = 3$$

$$6 \boxed{\times} (4 \div 2) = 12$$

$$(5 + 1) \boxed{\div} 3 = 2$$

$$10 + 2 \boxed{\times} 4 = 18$$

$$11 \times 3 \boxed{+} 1 = 34$$

$$(10 - 1) \boxed{\div} 3 = 3$$
