15 millimeters is 200% of how many centimeters?

18 kilograms is 250% of how many grams?

0.15 liters is 50% of how many milliliters ?

0.03 kilometers is 40% of how many meters ?

200 grams is 200% of how many kilograms?

12 centimeters is 500% of how many millimeters ?

50 milliliters is 5% of how many centimeters ?

10 kilograms is 2,000% of how many grams ?

Answers

Calculate and round off to the nearest tenth

150 milliliters is 5% of how many liters ?

3 liters

800 grams is 25% of how many kilograms?

3.2 kilograms

300 meters is 10% of how many kilometers ?

3 kilometers

2.5 centimeters is 20% of how many millimeters ?

125 millimeters

15 millimeters is 200% of how many centimeters?

0.75 centimeters

18 kilograms is 250% of how many grams?

7,200 grams

0.15 liters is 50% of how many milliliters ?

300 milliliters

0.03 kilometers is 40% of how many meters ?

75 meters

200 grams is 200% of how many kilograms?

0.1 kilograms

12 centimeters is 500% of how many millimeters ?

24 millimeters

50 milliliters is 5% of how many centimeters ?

100 centimeters

10 kilograms is 2,000% of how many grams ?

500 grams
